

**STATE OF NEW MEXICO
BEFORE THE WATER QUALITY CONTROL COMMISSION**

IN THE MATTER OF:

Final Draft Total Maximum Daily Load
For the Rio Chama Watershed

ORDER

THIS MATTER came before the New Mexico Water Quality Control Commission on July 12, 2011 at a regularly scheduled meeting. Having considered the proposed Final Draft Total Maximum Daily Load For the Rio Chama Watershed, together with the oral presentations at the meeting, IT IS HEREBY ORDERED THAT:

The Final Total Maximum Daily Load for the Rio Chama Watershed is approved with the following change: The first sentence of the first paragraph on page 82 shall be changed to state "These seasonal effluent limits would significantly reduce the loads of TP and TN that are introduced into the receiving stream."

ISSUED this 14 day of July 2011.

A handwritten signature in blue ink, appearing to read 'Raj Solomon', written over a horizontal line.

Raj Solomon, Chair
Water Quality Control Commission
